 +91-9149441304  Pune

Summary

Computer Engineering student with hands-on experience in **MERN Stack development, machine learning, and API testing**. Proficient in **C++** with a strong understanding of **data structures and algorithms**, and experienced in building full-stack applications for real-world use cases.

Education

Pune Institute of Computer Technology (PICT), Pune

CGPA: 8.96/10

Bachelor of Engineering in Computer Engineering

Aug 2023 – June 2027

Relevant Coursework: Data Structures & Algorithms, OOP, CNS, OS, SQL

HSC, JKBOSE

95.4%

SSC, JKBOSE

94.8%

Projects

GoSafe — Safe Routes Recommendation Application

- Built a safety-aware routing application using **OSRM, OpenStreetMap, and Nominatim APIs** to compare safest and shortest routes.
- Integrated **Firebase Firestore** with **100+ real-time crime data updates** for dynamic area-risk analysis.
- Implemented **location-based safety scoring** and developed a secure administrative dashboard for law enforcement.

Wellness Tracker — Health Monitoring Platform

- Developed a full-stack health monitoring platform using **MongoDB, Express.js, React.js, and Node.js** to track daily health metrics, meals, habits, and physical activities.
- Implemented **JWT authentication**, personalized dashboards, and real-time habit analytics.
- Integrated **Gemini API** for AI-based food calorie detection with secure backend image processing.
- Used by **80+ users** during hackathon testing and achieved **Runner-Up position**.

Experience

Cequence Security

Sep 2025 – Oct 2025

API Testing Intern

- Performed integrated **API and MCP testing** using **Cursor, Postman, and Swagger** across multiple enterprise integrations.
- Validated APIs and workflows for **GCP Billing, Gmail, Zendesk, and Workday** integrations.
- Reported and verified **15+ bugs**, improving test coverage and reliability of API integrations.

AICTE Samarthan Program — NITTTR Bhopal

May 2025 – June 2025

AI/ML Intern

- Built **regression and LSTM-based models** for house price prediction, applying preprocessing, feature engineering, model training, and evaluation on real-world datasets.

Technical Skills

Programming Languages: C++ (proficient) | JavaScript | Python

Databases: HTML | CSS | React.js | Node.js | Express.js

Web Development: SQL | MongoDB | Firebase

Programming Concepts: Object Oriented Programming | Data Structures & Algorithms

Core CS Subjects: Operating Systems | Computer Networks | DBMS | SQL

Development Tools: Git | GitHub | VS Code | Postman | Swagger | Cursor

Achievements

- **Runner-Up** — Hackathon, Sinhgad College of Engineering (Wellness Tracker).
- **9.71 SGPA** — Achieved in the 6th Semester of BE Computer Engineering.
- **PMSSS Scholarship Recipient** — Awarded the Prime Minister's Special Scholarship Scheme for higher education.
- **Winner** — Rakhi Making and Cooking Competition, Presentation Convent High School, Reasi.

Extracurricular

- **Technical Team Member** — Computer Society of India (CSI), PICT.
- **Publicity Head** — NSS, PICT.
- **Lead Coordinator** — Fandom, Pulzion'24.
